1) Which field of the Customers table is the primary key?

Answer- Cnum.

2) What is the 4th column of the Customers table?

 Answer- Rating .

3) What is another word for row? For column?

Answer- For row – Tuple, Entity, Opportunity For column – Attribute, Key, Methods.

4)Why isn't it possible to see the first five rows of a table?

 Answer - when you select from a table the order of the rows in the output depends on the row address it will always be in ascending order of row address. hence it is not possible to see the first five rows of a table.
